

Ramtin Mahmoudi

About Me

I am Ramtin Mahmoudi. I study computer science at the undergraduate level and my main interests are machine learning, artificial intelligence, and statistics.

I have tried to balance my proficiency between theoretical and practical aspects.

During my time in university, I have self-studied in different fields including bioinformatics and neuroscience. Besides that, I had time learning natural language processing and exploring transformers.

Education

- mathematics diploma
mandegar alborz high school (2018-2021)
- computer science
amirkabir university of technology
bachelor student (2021 – Present, expected 2025)
GPA 3.82

Work Experience

data science intern

peppydigger (2021-2023)

- persian sentiment analysis (gathering data and training model and writing Api for the model)
- persian named entity recognition
- writing apache kafka pipelines for social media analysing task

Competencies

- python (5 years experience)
- deep learning
- natural language processing
- pytorch
- tensorflow/keras
- apache kafka
- SQL
- machine learning
- elasticsearch
- statistics

Language

- persian - native language
- english - full proficiency
- german - beginner

teaching assistant

- basic programming (C) 2024-2025
 - under supervision of Dr f.zare
- artificial intelligence 2024-2025
 - under supervision of professor ghatee
- introduction to bioinformatics
 - under supervision of Dr f.zare

certifications

- neuromatch computational neuroscience
- GABA neuroscience diploma
- Structuring Machine Learning Projects(coursera)
- Natural Language Processing with Classification and Vector Spaces (coursera)

research assistant

- **sharif dml lab**
 - under supervision of Dr. rabiee
 - writing pytorch code for training supervised models for classifying tongue images
